DETAILED ACTION

1. Claim 1 is objected, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In particular, the use of the word "holder" in claim 1 does not tell what it holds, makes the claim indefinite. Applicant should clarify whether the holder is a patient support table to hold the patient or the holder is to hold the table or the holder is to hold one of the RF shields in proper position.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hoult et al (US 5,735,278).

As regards to claim 1, Hoult et al teach an apparatus for use in RF shielding, including a holder with RF shielding and configured for joining a magnet (figures 4 & 8, numerals 14, 44 and 72; column 9 and 10, lines 59-67 and 1-15). The magnet comprising magnet-RF-shielding, such that when the holder is adjoined to the magnet, the RF shielding and the magnet-RF-shielding form a substantially complete RF shield (figures 4 & 8, numerals 71 and 72; column 5, lines 43-50, column 10, lines 16-65).

As regards to claims 2-6, Hoult et al further teach a holder with an aperture, a patient support unit, a support for supporting the patient support unit, a magnet
